

SAFE & MAINTENANCE FREE WATER PLAY

www.rec-creations.com/splash/splash.php

Considering a water park or spray pads, but concerned over the cost of maintenance, control of chemicals and limited accessibility? Be concerned no more!

Splash Spaces is a "Flow Through" water play system that virtually eliminates the concerns of RWI's "Recreation Water Illnesses" in your water park. With a "Flow Through" system, there are no chemicals to worry about, and with a water supply that's as easy as attaching a water hose, you eliminate all of the concerns regarding expensive installation costs. All you need for the *Splash Space System*, is a drain to take your spent water away and a hard surface "preferably a concrete pad, for the unit to sit on." Within 1 to 2 hours, you can have your first *Splash Space*, up and running. And a great feature of our system is that you can move it to another location, if your plans change. No one else in the market offers that kind of trouble free use and flexibility that is provided by *Splash Spaces*.

PEBBLE FLEX SAFETY SURFACING

STANDARD & CUSTOM STANDING WATER FEATURES

Standing Water Features allow you the option of ordering current play events; like our SeaScape, Oak Tree, Plane and Palm Tree, or you can work with our design staff to come up with your own, site specific, personally designed creation. New designs in process are our Shark, Dolphin and Octopus.

Use the Standard Water Feature and its mat as a starting point for your park, or add various other mats to create just the right water park to meet your individual needs.

REASONS WHY THE RCI SPLASH SPACES ARE THE RIGHT CHOICE FOR YOU.

- No chemicals to control!
- No concerns regarding bacteria or other RWI's "Recreation Water Illnesses" that can turn your water play park into your worst nightmare!
- Little to No Maintenance! Plug it in, turn it on, and relax!
- Water use a concern? The new optional RCI Timer unit can insure that kids playing always have water, but when they aren't there, the water automatically turns off.
- ADA Accessibility Everyone gets to play on the Splash Spaces System. Wheel Chair accessible. Good for all ages and abilities.
- No in-ground water lines necessary. Getting water to the system can be as easy as attaching a standard water hose. One hose can run multiple units.

FOUR OPTIONAL WATER PLAY GAMES:

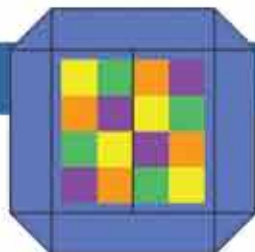

S P L A S H S P A C E S

AVAILABLE FROM RECREATION CREATIONS, Inc.

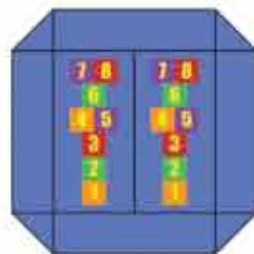

Mix and match our individual mats into a combination of splash spaces and provide exciting water play for all ages. Our mats, which are pre-programmed, can be purchased as single and stand alone systems, or connected together to create a significant water park. ADA accessibility insures that everyone gets to play. Each mat comes in a 12' x 12' footprint.

Your only limitation is your imagination!

Recreation Creations, Inc. is dedicated to bringing our customers the safest and most affordable ways of improving their outdoor fun. Our team has been in the playground industry for many years and has helped to make many improvements and bring innovations into the market.

SPLASH
SPACES

We are proud to offer our enjoyable *Splash Spaces* outdoor system to our clients as an addition to any existing play area or as the main focus of a new one. *Splash Spaces* are an economical alternative to expensive in ground systems. One of the greatest features of *Splash Spaces* is their expansibility which allows facilities to add more features as their budgets allow.
